Closing Comments, Workshop Evaluations & Farewell

WORKSHOP SUMMARY:

This certification workshop is designed to train health educators with an interest and background in “Holistic Stress Management” to teach, direct or facilitate quality presentations/workshops at their worksite. The focus of this workshop is holistic—honoring the integration, balance and harmony of mind, body spirit and emotions for optimal well-being. The World Health Organization cites stress as “a global epidemic.” In light of recent events, from international terrorism, Sandy Hook Elementary School, genetic cloning, increases in chronic diseases and everything in between, the words “change” and “stress” are becoming synonymous. It is no secret that people’s coping skills for change are underdeveloped and certainly underutilized. The purpose of this workshop is two-fold: 1) to gain a sound background in holistic approach to stress management, addressing not only the causes of stress through effective coping skills, but the symptoms of stress with effective relaxation techniques, and 2) to refine excellent teaching skills in which to share this knowledge most effectively, whether it is through a one-hour presentation or a 16 week college credit course.

2011-2015 WORKSHOP PARTICIPANT COMMENTS:

“I was hoping that your workshop would help me crystallize the swirling in my head and help me understand the dread I felt about pursuing a speaking career in this field. It came to me on the plane ride home - the understanding I was looking for. Your workshop was invaluable in helping me to move through this block and I am truly, truly grateful. I will keep you posted as I go! Thanks again and best wishes to you for continued success in helping people change their lives!”
— Ellen, Baltimore, MD

“As a nurse practitioner and manager for Integrative Medicine and Wellness Services in a community hospital setting, I gleaned far more from this course than I ever could have imagined.... it was packed full of ‘little gems’ of research data, tips for teaching and coaching, information about starting up a business, lesson plans and creative handout ideas, stunning photographs and beautiful music, both experiential and didactic, right-brained and left-brained, conscious and unconscious.... nothing was left out. Not only did I learn ‘to capacity’, but I re-discovered my enthusiasm and passion for my work and am eager to ‘dig in’ and re-craft programs and courses based on what I now know I didn’t know. Thanks, Luke, to you and all those in our spring 2011 class who shared and grew together.”

— Derreth, ME

“In forty years of practice and learning, this experience has been one of the most profound for me (and my students, clients and all I come in contact with). THANK YOU so much.”

— Pam P. Amber, PA

“I am so impressed with the ‘ways and means’ of this workshop. Both nurturing and didactic in nature, the way you go about providing that – small class size and a variety of hands-on experiences – is really an art, Luke. I appreciate this talent of yours. I also am appreciative to know I can stay in touch as needed. Being able to ‘take back’ things to use specifically is a real blessing in approaching this huge topic. Be well!”

— Becky B., (RN), Bangor, ME

“Many thanks for the truly inspirational workshop. I’ve already used the creative problem solving exercise for our employee wellness program. Many thanks again.”

— Lou D., Texas

“Thank you for the wonderful September Workshop. Thank you for sharing your amazing energy, experience, and knowledge. I learned so much about stress and stress relief that will benefit both me and my patients. I was blown away by the information and experience of healing, energy work, meditation and spirituality.”

— Jennifer H. (RN) Sitka, AK

“What I received from your workshop was a gift that was hard to measure. I found another piece of myself and found I was able to help people in other ways than through my physical nursing skills. You have helped me start growing and I feel energized to continue. THANK YOU!”

— Laura, H. (RN) Duke Medical Center

“The amount of tools and resources provided to enhance and teach holistic wellness, stress management and spirituality is amazing. Thank you. You are an inspiration. Words cannot convey how much. I have an infinite number of ideas about how to promote the concepts presented in people’s lives to journey towards well being.”

— Sharon P., Santa Barbara, CA

“Dr. Seaward knows the field well, has taught it and lived it—and provides scientific documentation at every step. But perhaps most important, Dr. Seaward goes beyond the usual approach to the subject to speak of soul and human spirituality because he realizes that stress management and maximal health are impossible to attain unless the questions to life’s meaning are addressed.”
