

Holistic Stress Management *Instructor Certification Workshop*

With

Brian Luke Seaward, Ph.D.

In association with The Paramount Wellness Institute

“Dr. Seaward knows the field well, has taught it and lived it—and provides scientific documentation at every step. But perhaps most important, Dr. Seaward goes beyond the usual approach to the subject to speak of soul and human spirituality because he realizes that stress management and maximal health are impossible to attain unless the questions to life’s meaning are addressed.”

— Larry Dossey, M.D. Author of *Reinventing Medicine*

Workshop Summary: This certification workshop is designed to train health educators with an interest and background in “Holistic Stress Management” to teach, direct or facilitate quality presentations/workshops at their worksite or private practice. The focus of this workshop is holistic—honoring the integration, balance and harmony of mind, body, spirit and emotions for optimal well-being. The World Health Organization cites stress as “a global epidemic.” Others now call it the “black plague of the 21st century.” In light of current world issues, from international terrorism, economic uncertainty, climate change, work-life imbalance, increases in chronic diseases and everything in between, the words “change” and “stress” are becoming synonymous. It is no secret that people’s coping skills for change are underdeveloped and certainly underutilized. The purpose of this workshop is two-fold: 1) to gain a sound background in a holistic approach to stress management, addressing not only the causes of stress through effective coping skills, but the symptoms of stress with effective relaxation techniques, and 2) to refine excellent teaching skills in which to share this knowledge most effectively, whether it is through a one-hour presentation or a 16 week college credit course.

Workshop Participant Comments

“Thank you, Luke, for a great experience in learning to teach stress management to others. For many, it seems that just when you think life cannot get any more stressful, it does. Stress is part of life—it cannot and will not be eradicated. We must learn to make peace with it and learn to control and manage the stress, before it controls and manages us. It is a constant balancing and rebalancing act, and sometimes it feels as though we are dancing the cha cha—one step forward, two steps back. This workshop provided all the tools and techniques I would/could need to effectively explain, demonstrate, and teach stress management to groups and individuals.

This stress management instructor certification workshop provided me with the missing piece in my professional portfolio/repertoire/credentials. As a Hatha yoga and AcuYoga instructor and Integrative Health Coach, I discuss the impact of stress on our health, and the need for effective stress management, but, until now, did not have a tool kit or bag of tricks to offer my clients to put into place in their own lives. Thank you for providing this, so I can share it with my clients. Until now, I had only had the opportunity to work with you in a single session at The Graduate Institute. I enjoyed these four days, getting to know you better and working with you. I look forward to working together in the future. Thanks again, for everything!” — Christel A, RDH, RYT, MA

“The sheer volume of information and resources of exercises will keep me busy for years. Having options to teach exercises related to the different focus areas is incredible. And I am very appreciative of the CD-ROM with even more information and Powerpoint samples. The information on creating great slide show presentations was INVALUABLE. All of this has helped me to integrate the material to make my understanding more solid as to how it all fits together so beautifully into the work.” —Denise R. New Haven, CT

“The most important thing that I took away from the course (amongst the hundred other things that I took away) was a lifetime of exploration. The tools and information that you provided thru your lifework, will probably take me the rest of my life explore and utilize. I feel like I have been put on the yellow brick road - learning things both from within and on the outside, meeting new people along the way and having wonderful adventures. And I thank you from the bottom of my heart for that.” Ellen 2013 workshop alum.

“Thank you so much for all of your wisdom and love and sharing in delivering a fabulous workshop on Holistic Stress Management. I thought your talk on Stress and Spirituality was absolutely phenomenal and very moving. Thank you so much for your kindness, intellect, and willingness to share so much with us. Thanks from the bottom of my heart. With great blessings.” — Karen, Ashville, NC

“I was hoping that your workshop would help me crystallize the swirling in my head and help me understand the dread I felt about pursuing a speaking career in this field. It came to me on the plane ride home - the understanding I was looking for. Your workshop was invaluable in helping me to move through this block and I am truly, truly grateful. I will keep you posted as I go! Thanks again and best wishes to you for continued success in helping people change their lives!” — Ellen, Baltimore, MD

“I am sure that you hear this often.... but you are truly a gift and you show what can happen when you live your passion. Thank you for bringing me into the ‘family’ and sharing your energy, these past days were beautiful. I know that I am following my purpose because of the opportunities that are being dropped into my life, your class being one of them. With love and kindness,” Vicki, Tampa, FL

“As a nurse practitioner and manager for Integrative Medicine and Wellness Services in a community hospital setting, I gleaned far more from this course than I ever could have imagined.... it was packed full of “little gems” of research data, tips for teaching and coaching, information about starting up a business, lesson plans and creative handout ideas, stunning photographs and beautiful music, both experiential and didactic, right-brained and left-brained, conscious and unconscious.... nothing was left out. Not only did I learn “to capacity”, but I re-discovered my enthusiasm and passion for my work and am eager to “dig in” and re-craft programs and courses based on what I now know I didn’t know. Thanks, Luke, to you and all those in our spring 2011 class who shared and grew together.” — Derreth, ME

“Luke, I wrote a grant to the Cancer Coalition for funding to opening a Healing Touch studio for breast Cancer patients, I already teach them meditation and now (pending this grant which we are SO gunna get) will be able to do Healing Touch

therapies for them. I am SO humbled and grateful for you starting me off on this path that I could NEVER have imagined!!" — Nora O., OK

"This class was phenomenal – it has changed my life! The skills learned here will be put to good use for myself, my family and my clientele. I feel blessed to have been a participant. Thank you so much. I hope to see you again in the near future.

"Thanks to you, my workshops and presentation have more pizzazz." — Peggy J., Chicago

"Best conference/teaching session I have ever been to – I am an advanced holistic nurse-certified."

"In forty years of practice and learning, this experience has been one of the most profound for me (and my students, clients and all I come in contact with). THANK YOU so much." — Pam P. Amber, PA

"Once again, thank you for a wonderful workshop! It was, by far, the most inspirational and relevant I have ever participated in. I enjoyed the assignment and really appreciated your time and the gift of your knowledge/experience to all of us." — Cyndie Koopsen, Flagstaff, AZ

"I am so impressed with the 'ways and means' of this workshop. Both nurturing and didactic in nature, the way you go about providing that – small class size and a variety of hands-on experiences – is really an art, Luke. I appreciate this talent of yours. I also am appreciative to know I can stay in touch as needed. Being able to 'take back' things to use specifically is a real blessing in approaching this huge topic. Be well!" — Becky B., (RN), Bangor, ME

"I have attended workshops by Jon Kabot-Zinn and other leaders in the field, but this workshop (beyond comprehensive) was exactly what I have been searching for in all these years."

"The "best" seminar I have ever attended. I feel very inspired and even more certain I am following the right path in my life. Luke, you are a gem! Thank you!"

"Many thanks for the truly inspirational workshop. I've already used the creative problem solving exercise for our employee wellness program. Many Thanks again." — Lou D., Texas

"Thank you so much for a personally rewarding course. I thoroughly enjoyed the workshop and your leadership was truly inspiring. I appreciate your passion for this work as it is what the world needs now." — Cindy M. YMCA of Providence, RI.

"Thank you for the wonderful September Workshop. Thank you for sharing your amazing energy, experience, and knowledge. I learned so much about stress and stress relief that will benefit both me and my patients. I was blown away by the information and experience of healing, energy work, meditation and spirituality." — Jennifer H. (RN) Sitka, AK

"What I received from your workshop was a gift that was hard to measure. I found another piece of myself and found I was able to help people in other ways than through my physical nursing skills. You have helped me start growing and I feel energized to continue. THANK YOU!" — Laura, H. (RN) Duke Medical Center

"A wonderful four days. A return to what I felt as a child and have spent the last five years trying (however unsupported) to reincarnate. Thank you! Also very happy to never have been bored, as I get bored easily."

"This whole workshop was first rate. It more than met my expectations. It was fun, inspiring, entertaining, informative, broadening, expansive, connecting – excellent! Thank you so much – I go home even more inspired and creative than when I left. Bravo!"

"The amount of tools and resources provided to enhance and teach holistic wellness, stress management and spirituality is amazing. Thank you. You are an inspiration. Words cannot convey how much. I have an infinite number of ideas about how to promote the concepts presented in people's lives to journey towards well being."

"This was my first conference of this type and it was great. Luke taught to us as though we were instructors. This will be a wonderful tool to expand and invigorate my new business. New insight as to where massage fits the whole wellness picture. Thank you."

"This workshop was another "life changing" experience for me, as I learn to acknowledge and honor my spirit voice. Thank you for being so giving and willing to share so much of yourself!"

"The most well organized workshop I have ever attended. Worthwhile for all nurses as patient advocates/people advocates."

"I got two very valuable things out of this workshop. First, a totally comprehensive text/reference resource that leaves no stone unturned regarding the role of stress in our lives and health. I really appreciate its approach of bringing together the theories and research of so many of the prominent thinkers of our time along with non-Western modalities, integrating them holistically with a focus on humans as spiritual as well as physical, mental, and emotional beings."
